

# CraftCove

A space to house works-in-progress of both David & Joel's dev projects or "ideas in flight". The projects will encompass development by it's nature but focus really on the ideas of why we would feel the need to make some of these explorations.

## MoodBoard

- Google Gemeni

## Concepts

- OnlyBirds
- Portfolio Landing page

## ToDo

- Research: LinkPreview: to be used as a way to add work in repos/branches to a UI
- Research: Bird watching cam API
- Work on David's Landing Page
  - add content tiles
  - type hierarchy
  - text effect
  - logo / favicon
